REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

041-1930ARI

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,272,530 granted August 7, 2001 and for which a

reissue patent is sought on the invention entitled Transmitter-Receiver for Electronic Mail that Provides Convenience to a User Receiving Mail Services from Various Mail Service Providers at Different Terminals and Different Places

the specification of which

☐ is attached hereto.

☒ was filed on August 7, 2003 as reissue application number 10/635,929

and was amended on _____

(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☒ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

At the time of prosecution of the application which matured into the patent to be reissued, I did not recognize that the terminal and the information processing apparatus recited in the broadened claims submitted herein formed patentable inventions to be protected. Thus, the subject matter recited in the claims filed on August 7, 2003, was neither claimed nor mentioned as invention in the issued patent. I now recognize, and claim, this subject matter as patentable invention.
